About us

Al Hashemiah International Company is a Construction Company was established in 2002 as a subsidiary from Al hashemiah International Group, Today we are equipped to face the challenges of the new millennium and present ourselves as reliable partners in executing turnkey Projects as well as manufacturing capbility.

Al Hashemiah International Company specializes in the Civil and Electro-mechanical construction and manufacturing of Piping ,Pressure Vessels ,Spherical Tanks ,Heat Exchanger ,Tanks ,Equipment and Steel structure .

Al Hashemiah International Company covers the market of Power Generation, Oils and Gases, Petrochemicals, Chemicals, Water Treatment, Fertilizers, and Industrial Projects domestically and globally.

Al Hashemiah International Company is committed to deliver a product and service of the highest quality that meets not only the international standards of quality, but also safety and health ones, and with an awareness of the growing concerns of environmental issues. Our clients like GE, SIEMENS, RWE, MITSUBISHI, GS, Doosan, ThyssenKrupp, HITACHI, ALSTOM and Metito which carry out operations around the world are among our closest clients and together a number of successful projects have been carried out.

Al Hashemiah International Company has two workshops sum up to 60,000 m2 and they are stationed across Alexandria and Gamasa. From which, Al Hashemiah International Company manufactured and exported special high pressure parts to USA, Australia, Netherlands, Spain, Italy, Sri Lanka, Venezuela, Qatar, Syria, Turkey, KSA, UAE and Libya. Al Hashemiah International Company is already active in the Middle East region through branches in Arab gulf and other.

This domestic and global recognition came from the very basic belief of the Board and the Staff of Al Hashemiah International Company that success comes from the absolute fact of engaging actively in the dynamic global business environment, applying highest quality standards, considering environmental issues, applying newest technologies, and the most skilled labor.

**INSTALLATION**

Al Hashemiah International Contracting Company HICC, has a good experience in civil and electromechanical construction as well as manufacturing with multinational companies like GE, SIEMENS, RWE, MITSUBISHI, GS, Doosan, ThyssenKrupp, HITACHI, ALSTOM and Metito

That are needed in the projects of :

- » Oil and Gas Industry:
  - » Up Stream - On shore and off shore production.
  - » Midstream - Pipelines, storage and LNG.
  - » Downstream Refineries, Petrochemicals, OTC.
- » Power Generation:
  - » HRSG (Vertical & Horizontal).
  - » Fired Boilers.
  - » CTG.
  - » STG.
  - » BOP Systems.
  - » Heat Exchanger, Condensers.
  - » Economizers.
- » Substation
  - » AIS.
  - » GIS.
- » Petrochemicals.
- » Fertilizers Industry.
- » Water Treatment and Desalination Plant.
- » Waste Water Treatment and Lifting Station.
- » Other Industrial Projects.

## OIL AND GAS INDUSTRY:

FABRICATION

Al Hashemiah International Company, specializes in pressure and non-pressure parts manufacturing, through our qualified workshops as well as exporting those parts to our clients, as we exported to USA, Netherlands, Spain, Australia, Sri Lanka, Venezuela, Qatar, Syria, Turkey, UAE, KSA and Libya. HICC is already active in the Middle East region through branches in Arab gulf and other.

» Our scope includes but not limited to the following:

- » Piping & Piping systems.
- » Boilers & Boiler parts.
- » Pressure Vessels & Tanks.
- » Spherical Tanks.
- » Heat Exchangers.
- » Economizers.
- » Condenser.
- » Handling systems.
- » Steel Structure.

DESCRIPTION FOR COMPANY PRODUCTS

» Heat Exchangers

» Heat exchanger for Sidi Kerir Petrochemicals Co.

» Piping Fabrication

» Piping for El shabab power station project (client Ansaldo).

» Piping for Mirfa power station (UNITED ARAB EMIRATES).

» Shipping boiler piping to west Damietta power station.

» Boiler piping exported to El segundo power plant in USA.

» Boiler piping exported to Besos power plant in Spain.

» Super heaters

- » Super heater element for utility boiler (Thermal power station Abu Qir).

- » Super heater coil element tube for Abu Qir thermal power station.

- » Heat treatment for Super heater coil element tube for Abu Qir thermal power station.

- » Super heater coil element tube for Abu Qir thermal power station.

» Pressure Vessels

- » pressure vessel for power staation in Suez.

- » Dearator tower for El Shabab power station.

- » 6th OCT storage tank power station.

- » Water treatment tank for Algeria.

- » Deaerator for power station Mirfa (UNITED ARAB EMIRATES).

- » Mirfa blowdown tank for power station.

- » Blowdown tank for West Damietta power station.

- » Abo Zaabal Fertilizer & Chemical Co..

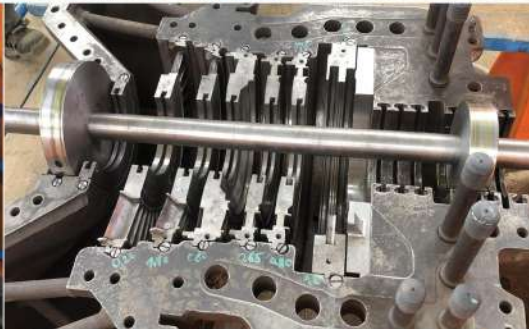

MAINTENANCE & REPAIR

Al Hashemiah Proudly offers major repairs and maintenance for Pressure and Non-Pressure parts, through comply with the international standards. Our capability and trained teams provides repairing and revamping services, either on/or off-site. This domestic and global recognition came from the basic belief of the Board and the Staff A: Hashemiah International company of has success comes from the absolute fact of engaging actively in the dynamic global business environment, applying highest quality

standards, considering environmental issues, applying newest technologies, and utilizing skilled labor.
